### **Description**

Badawee-Hasbaya Olive Oil is a venture to bring premium top quality Extra Virgin Olive Oil to a selected gourmet public at the national and international scales. Our carefully selected Extra Virgin olive oil seduces the most difficult palates with its distinguished taste and flavor.

Olives are harvested from selected olive groves in Hasbaya, South Lebanon and the surrounding area.

Hasbaya's environment is mountainous; clean fresh air and pleasant southern temperatures combined to generous soils contribute to the production of top quality Extra Virgin Olive Oil. Olive trees, grown on terraces flanking the mountains and fed by rain and water thawing off from the surrounding snow capped mountains, produce an oil with unique herbaceous characteristics.

Olives are picked by hand. They are picked green. Only the highest grade of olives is selected and sent to the press less than 12 hours after harvest. Badawee-Hasbaya Extra Virgin Olive Oil is always 'Cold Pressed'.

Badawee-Hasbaya Extra Virgin Olive Oil, has a distinctive, complex flavor and aroma of fresh green olives; the soft bitter peppery taste of the oil tantalizes your taste buds and stirs your senses, leaving a soft, pleasant gentle burning sensation at the back of the throat. The color of this Extra Virgin

Olive Oil is a rich dark emerald green.

- Olive Oil Badawee-Hasbaya's, Extra Virgin Olive Oil, **has 0.234% acidity**
- Olive Oil Badawee-Hasbaya, has zero additives, zero chemical treatment.
